

# USING THE MAPS FINANCIAL HEALTH & EQUITY DASHBOARD

[mapsproject.org/financialhealthandequitydashboard](https://mapsproject.org/financialhealthandequitydashboard)

## GETTING STARTED

1 Select the **sector**, **state**, and **school** you wish to look into.

PRIVATE, 2-YEAR

PRIVATE, 4-YEAR OR ABOVE

PROPRIETARY, 2-YEAR

PROPRIETARY, 4-YEAR OR ABOVE

PUBLIC, 2-YEAR

PUBLIC, 4-YEAR OR ABOVE

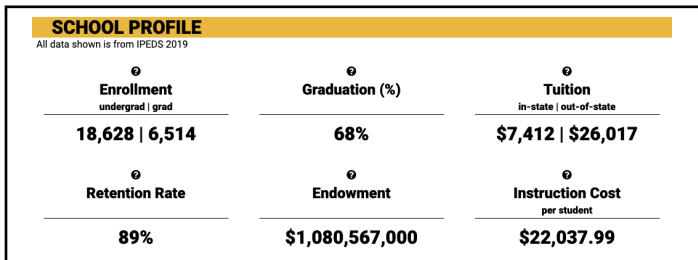

SELECT STATE

--none--

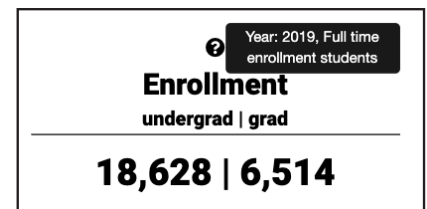

SELECT UNIVERSITY

--none--

2 Scroll down to see the school's **overall profile** information.

3 Hover over the question mark circle to learn more about the data presented.

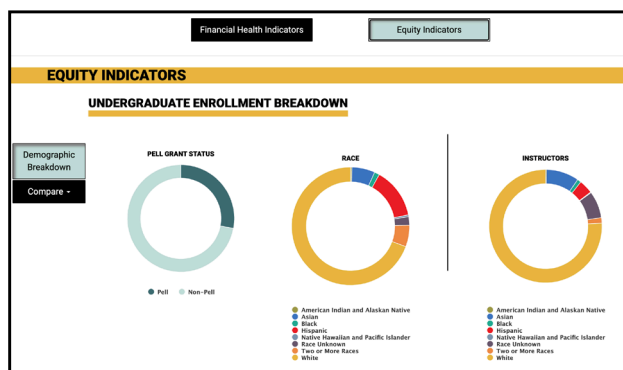

## EQUITY INDICATORS TAB

1 Select the **Equity Indicators** tab to view disaggregated outcomes and representation data for your school.

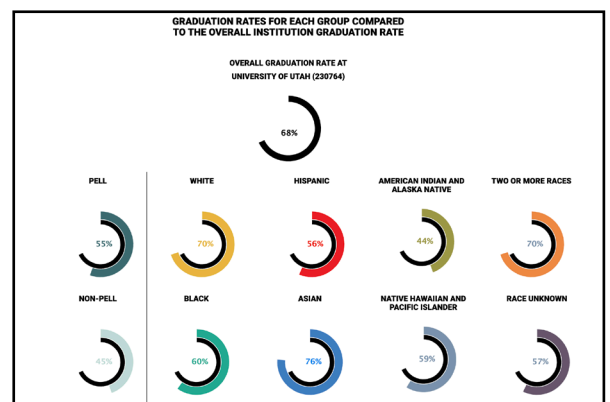

Financial Health Indicators

Equity Indicators

2 Look through your **school's enrollment and instructional staff demographic data**, broken down by Pell Grant status and race.

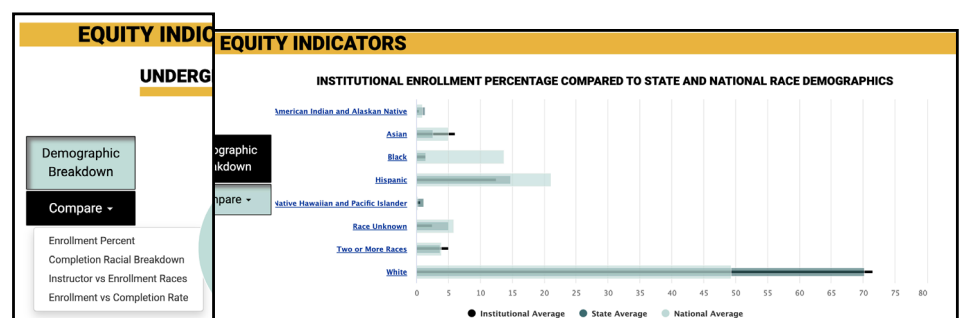

3 Scroll down to **compare graduation rates for individual groups** to your school's overall graduation rate to see who is over- or underrepresented in graduation.

4 On the left-hand side, select the Compare tab to see your school's **equity indicators compared to state and national data**.

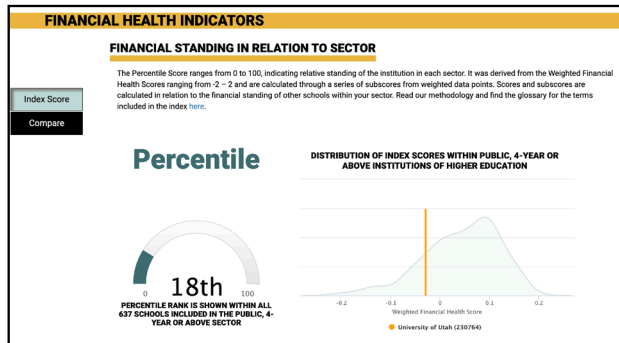

Legends on all charts in the dashboard are **interactive**. Click a **variable in the legend to remove or add it back to the chart**.

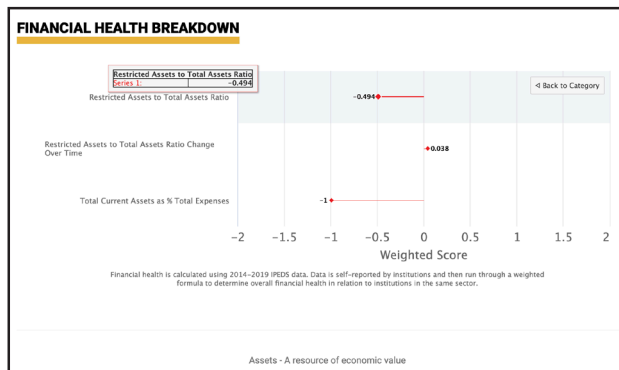

# FINANCIAL HEALTH INDICATORS TAB

**1** Select the **Financial Health Indicators** tab to view your school's financial health percentile rank compared to other schools in your sector.

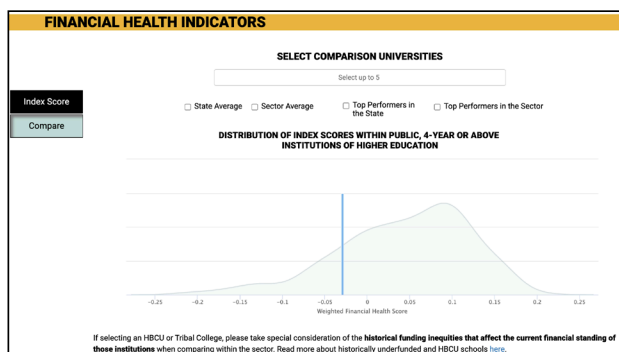

**2** Scroll down to your school's **percentile rank** for financial health in relation to the other schools in their sector.

**4** Select a data point on the graph to see a breakdown of that category's **subindicators**.

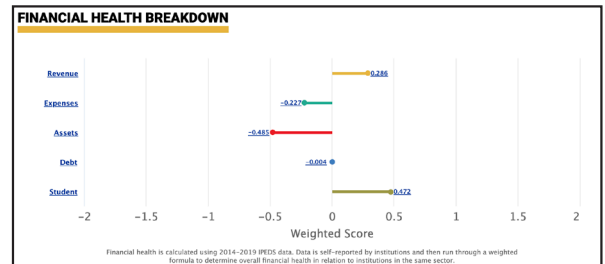

**6** Select the Compare tab to see how your school's ranking compares to other schools in the same sector or choose one of the four pre-determined comparisons.

Financial Health Indicators

Equity Indicators

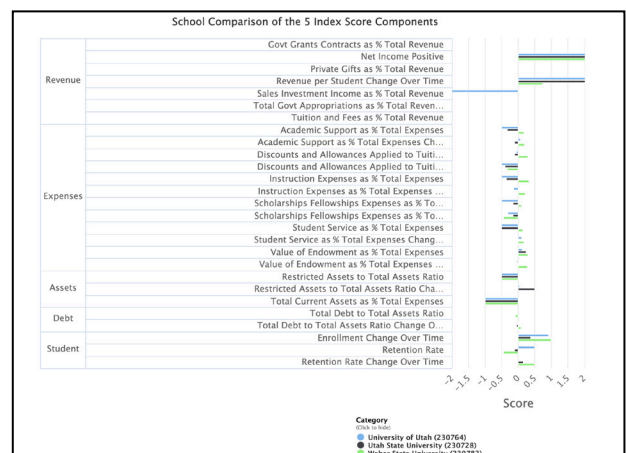

**3** Scroll down to see the **breakdown** of your financial ranking, noting scores for each of the five components that go into your ranking: Revenue, Expenses, Assets, Debt, and Student indicators.

**5** Select a data point on the graph and scroll down to see the **calculation for the subindicator** and individual **trend line graphs for each component of that subindicator**.

**7** Compare the components and subindicators for each school to see where the differences in ranks originate.

Explore the **Resources** & read **Use Cases** of colleges and universities for examples of trends, best practices, & insights from the Financial Health and Equity Dashboard on their campuses.
